SUMMARY SHEET

I. <u>Description of Item</u>

A RESOLUTION APPROVING AN AMENDMENT TO CONTRACT NO. CA033558 IN THE AMOUNT OF \$950,098.68 WITH KIMLEY-HORN AND ASSOCIATES, INC. FOR DESIGN AND CONSTRUCTION ADMINISTRATION SERVICES OF THE CONGESTION MANAGEMENT AIR QUALITY PROJECT AND THIS ITEM REQUIRES AN EXPENDITURE OF FEDERAL GRANT FUNDS IN THE AMOUNT OF \$950,098.68. SPONSORED BY COMMISSIONER WYATT BUNKER.

II. Source and Amount of Funding

A. Amount Expended/Budget Line Item

No Shelby County funds are required for this project.

\$ 7,600,000.00
< 1,888,667.00>
< 2,215,425.00>
\$ 3,495,908.00
\$ 950,099.00
\$ 2,545,809.00

- B. All Costs (Direct/Indirect)
 - 1. None
- C. Additional or Subsequent Obligations or Expenses of Shelby County
 - 1. None

III. Contract Items

A. Type of Contract: Standard B. Terms Routine

IV. Additional Information Relevant to approval of this item

The CMAQ Program is a one hundred percent (100%) federally funded initiative to identify, design and construct improvements that will improve air quality through the reduction of emissions from traffic congestion. The federal grant funds received by Shelby County are utilized for projects in the unincorporated areas of the County as well as the suburban cities of Bartlett, Collierville, Arlington, Germantown, Lakeland, and Millington. Potential projects include signal system upgrades, emergency vehicle preemption, improved traffic signal detection devices, unsignalized intersection improvements, and construction of new signals.

The validation for retaining the engineering services of the current consultant, Kimley-Horn and Associates, Inc., was based on this project being a continuation of work in progress, of subsequent year funding, of the general scope, of the basic contract. Selection of an alternate firm would result in a loss of efficiency, project expertise, stakeholder coordination, and ultimately, increased program costs. Shelby County and the consultant have been working closely with the local municipalities to develop a County-wide signalization plan that looks not only at localized problems, but also incorporates regional considerations for improving traffic congestion. Kimley-Horn and Associates, Inc.'s unique expertise in complex traffic signal system designs has been an important resource contributing toward the success of this project.

Shelby County Engineering administers the program in coordination with each municipality and TDOT. Shelby County will be reimbursed for all costs incurred by this contract as well as subsequent construction projects funded by TDOT through this program.
